

The graph displays two data series over a time interval from 0 to 2500 seconds. The x-axis is labeled 'Elapsed Time (s)' and has major ticks at 0, 500, 1000, 1500, 2000, and 2500. The y-axis is unlabeled. A horizontal purple line is positioned at the top of the plot area, extending from 0 to approximately 2650 seconds. A vertical red line is positioned at approximately 2250 seconds, extending from the bottom of the plot area to the top purple line.
