

The graph displays a purple oscillating signal against a horizontal olive-green baseline. The x-axis is labeled from 0 to 140 in increments of 20. The signal exhibits several peaks, with the highest peak reaching approximately 150 at x=18. Other significant peaks occur at x=10, 22, 32, 45, 60, 65, 72, 92, 105, 108, 110, 125, 130, and 135. The signal also shows several troughs, with the lowest reaching approximately -10 at x=15, 105, and 108.
