

The graph displays three curves on a coordinate system where the x-axis ranges from 0 to 80,000. The y-axis is unlabeled. A horizontal purple line serves as the baseline. The purple curve starts at the origin, rises to a peak of approximately 0.95 at x=60,000, and returns to the baseline at x=85,000. The grey curve starts at the origin, rises to a peak of approximately 0.6 at x=40,000, and returns to the baseline at x=85,000. The gold curve starts at the origin, rises to a peak of approximately 0.2 at x=20,000, dips below the baseline to a minimum of approximately -0.1 at x=70,000, and returns to the baseline at x=85,000.
